

Compiler Construction: Practical Introduction

Project presentation

5 = 5 team

Fall Semester 2023 Innopolis University

Team composition

- A** Anna Dluzhinskaya (*a.dluzhinskaya@innopolis.university*)
- D** Daler Zakirov (*d.zakirov@innopolis.university*)
- D** Damir Nabiullin (*d.nabiullin@innopolis.university*)
- D** Dinar Shamsutdinov (*d.shamsutdinov@innopolis.university*)
- V** Vadim Makarov (*va.makarov@innopolis.university*)

Technology stack

Source language: **Functional** (*Lisp*)

Implementation language: **C#**

Parser: **Yacc/Bison**

Interpretation: **YES** 😊

Preliminary plan

What we are going to do:

- Listen to material covered on the lectures
- After that complement the compiler with the new functionality studied at the lecture
- Visit the labs showing there the result of the work done during the week
